

Draft CCMM Group Meeting Minutes
Meeting held: 12.45-13.45 Monday 12 January 2026 GS2

Present: Serena Best, A Perkins, Lu Zhang, Ben Steel, Nemo Wang, Aditya Nandakumar, Cindy Wai, Dan Bax, Mike Moore, Emma Gough, Lillian Zhang, Jiaer Chen, Tom Sweeney, Vivien Alves Passing, Felix Wei

Apologies: Ruth Cameron, Kerem Citak, Emma Sumner, Greg Truman, Ashlyn Chew, Sumedh Kampli

Kerem Citak gave a talk entitled:

“Development of epidermal inspired collagen films via Electrophoretic Deposition (EPD) for wound healing applications”

Health, Safety and Welfare: : MM calculate volume of what could be contained. Alternative arrangement may be having fewer bottles per tray, for example, 3 smaller trays taking 2 bottles each instead of one big tray to hold 6 bottles?

Incident: We had a seriously hazardous chemical brought into the Lab without it having been Risk Assessed first. This was ordered by a Royce visitor to the Lab. DVB has dealt with the situation and the visitor retrained. Please learn from this mistake and make sure you always get the RA done before ordering in dangerous goods.

Risk Assessment and COSHH Forms: Safety

Lab matters: The water purifier has been repaired.

MM will begin disposing of unwanted samples in the fridges / freezers. If you are aware of any samples that can be destroyed please let Mike know. MM to check with David Barrett if his sample can go.

Lab clean: The next lab clean will be on Friday 14 February 2026. Action: MM to circulate new rota.

Collagen: An order has been placed with Collagen Solutions. They have delayed delivery owing to a problem at their end. Action: chase again beginning of February.

AOB: Safety

Date of next meeting: Monday 2 February 2026 (Lu Zhang)
