Present: A Perkins, Lu Zhang, Mike Moore, Ruth Cameron, Dan Bax, Serena Best, Lillian Zhang, Kerem Citak, Tom Sweeney, Aditya Nandakumar, Sumedh Kampli, Zekai Zhao, Maia Cheung, Cindy Wai, Nemo Wang, Ana Duarte, Melike Temizturk

Apologies: Jiaer Chen, Emrys Thursfield, Ben Steel

There was no talk

Health, Safety and Welfare: no issues were raised

Risk Assessment and COSHH Forms: Usual reminder to keep your forms up to date

Lab matters: MM will send the pipettes away for recalibration.

Favimat: return further delayed – we had to pay for the repair before they would send it back.

PC in the office (right hand side behind DVB's desk) has failed. It was used heavily for Micro CT data. There was a lot of data on it now irretrievable but was data belonging to people who have since left. PC cannot be updated owing to being incompatible with Windows 11. Currently we still have 3-4 processing PCs. It was agreed to remove the graphics card from the failed machine.

Action: Nemo to be tasked with removing graphics card.

Action: Email to inform the group of this

DVB: has fixed the stage on the Evos in the cell culture lab.

Collagen supply: No reply still from Collagen Solutions

Lab clean: Next Lab Clean is June 14th (Group 1).

Social: Climbing wall – going ahead on Wednesday.

Conferences: People will be hearing about their ESB abstracts very soon.

AOB: there will be no meeting 25 May owing to Bank Holiday.

Date of next meeting: Monday 1 June 2026 (Nemo Wang)
