Health, Safety and Welfare:

Risk Assessment and COSHH Forms:

Lab matters: Freeze driers: Gloria is out of commission. The pump is still in working condition though and will be kept as a spare.

MM reported Biopharma declined to quote for repairs to our Freeze drier.
Chemical amnesty – MM in final preparation to clear out unwanted chemicals deadline to rescue any from the disposal list 19/03.

DVB explainted track charge. W have to abide by for anything coming out of a grant.
(This does not apply to PhD students). Dan believes that group usage could help make booking the Royce freeze drier even more affordable.

Looking like Gloria is not going to be repairable. We are looking at making use of the Royce freeze drier going forward.

MM / DVB were examining time used on freeze driers. It looks like the is extra capacity with the Royce drier to supply our needs.

Lab clean: Attendance at last labl clean was poor. Please be sure to attend. Its important to do your turn. The next lab clean will be on Friday 13 March.

Social: Lillian kindly offered another puppy meet up.

Conferences: ESB deadline ws enteded to 31/03 though CCMM members interested in going have already submitted their abstracts.

AOB: DVB reminded that anyone wishing to use the 2-photon (expensive) that it is a good ideat to arrange to do it with an external partner.

Please remember to record any leave / time away with Anna.

South East Regional round of IOM3 Young Person's Lecture Competition is being held at the Department of Architecture on 25/4. Organiser: Luke Malone (ex CCMM group PhD).

It was agreed to switch our meetings to take place in Evetts room (when available) as it is more suitable for our group size.

Easter holiday closing – from Good Friday to Easter Monday there is out of hours access to DMSM. If you need to come in remember need a buddy.

DVB is off the week of 6/4 returning 13/4.

The meeting of 30/3 has been cancelled as both SMB/REC are away.

Date of next meeting: Monday 13 April 2026 (Jiaer Chen)
