Apologies: Ben Steel, Cindy Wai

There was no talk

Health, Safety and Welfare: there were no accidents or incidents.

Risk Assessment and COSHH Forms: SMB underlined the importance of keeping your safety documents up to date and signed off.

Lab matters: Freeze driers: Clive is working fine and Elton has been all okay (now that specific region inside has been marked up). Please be careful to only place samples in the square marked on the shelf.

The Luminex had its annual service on 22/04/2026 and is working fine.

Favimat: the Favimat part is away in Germany for repair and we await its return. Hopefully quite soon.

Lab clean: Next Lab Clean is May 8th (Group 2). Please remember to ask for a swap with a person from Group 1 if you cannot make your turn for any reason.

AOB: Gauntlets and visor missing from the TC lab. Please return as these are safety requirement.

Royce funding of the 3D Biosuite has been extended for another 5 years. Very good news for CCMM Group and for all the Royce facilities within DMSM.

Reminder: Graduate student meeting (organised by REMW) is on 29 June. The first year PhDs must submit a poster and 2nd year PhDs give a talk

2 MPhil student will be joining the group from 5 May. Maya and Zakkai are taking the Nanotech Enterprise MPhil.

Gaspere Degano from University of Lyon is coming as a student visitor from 26 May.

Social: please respond to survey kindly circulated by Lu to gauge interest in going to the climbing wall.

Date of next meeting: Monday 11 May 2026 (no talk)
