“The effect of Temperature on EPD of hCNFs”

Health, Safety and Welfare: there were no accidents or incidents

Risk Assessment and COSHH Forms: Your experiments may have changed so always make sure the forms reflect this and have up to date signatures

Lab matters: Mike is aware of the balance in the fume hood being out of operation. This will be fixed meantime please use the other balance.

Reminder: if using the Royce equipment kindly please remember to enter the time used on PPMS. This information is closely monitored by Royce. It can influence our ability to get their support for future equipment purchases. They need accurate records of equipment usage.

Collagen supply: Update next week

Lab clean: Next Lab Clean is June 12th (Group 1). Please check with Mike if you cannot make your turn.

Social: Weather has stopped play until sunny and calm again.

Conferences: all attendees to register for ESB by 15 June to take advantage of ‘earlybird rate’

AOB: There is a call for posters for the A&B Forum on 16 June. Please speak to SMB/REC if you plan to offer a poster.

Date of next meeting: Monday 15 June 2026 (no talk)
